

Letter from Dr. Chasse

Our goal is to nurture the WHOLE child... intellectual, physical and social capacities of each and every student to the fullest extent possible. Giving of your time, talents and expertise will not only help our school, but enhances our students' learning by providing a well-rounded education in a powerful learning environment.

But we realize schools cannot do it alone. Volunteers are truly the backbone of our educational system. By bringing in the expertise that is right here in the Ladera community and working together with our local community of businesses and professionals everyone wins! As the saying states, "It takes a WHOLE village to raise a child." In the old days, everyone in the extended family and town played an important part in educating children of the community. The result, the children grew up to become contributing members of the town and helped bring new ideas/innovations so that the community would prosper.

At Ladera Elementary it has been the UNITY of the parents and teachers that has made the difference. According to the dictionary *Unity* means harmony among the parent-teacher organizations, the staff and home-school partnership. By being this united force working together for a common goal, the best interests of our students, what we dream becomes reality!

I would like to take this opportunity to say that despite hard budget times, thank you for making children and their education YOUR priority. Remember no act of support is ever too small or insignificant. Children learn in different ways and at different rates, your involvement can come in different ways and at different rates/styles as well and still have a major impact on the achievement of our vision!

Dream...Believe...Succeed!

Dr. Pam Chasse, Principal

1211 Calle Almendro Thousand Oaks, CA 91360
